# WELCOME

## Dear Colleagues:

again, I would like to personally invite you to join the faculty and me to the 4<sup>th</sup> International Breast Symposium Düsseldorf (IBSD) being held in April 22 - 23, 2016.

We have been able to recruit again renowned national and international plastic surgeons and senologists as faculty members, to initiate discussions of current developments in aesthetic and reconstructive breast surgery. We would like to take the greatest opportunity to strengthen the multidisciplinary approach between the colleagues to create a platform for an open discussion from different perspectives.

Our Symposium will include debates, lectures and round tables about following Key Topics:

- Pro and contra debates, round tables and hot seat sessions of key opinion leaders
- Plastic and reconstructive surgery – perspectives in the future
- Different aspects in augmentation
- Different countries – different practice in surgery?
- Lipofilling - what is new?
- Immediate or delayed reconstruction?
- Reduction and mastopexy - different cases
- Perforator flaps vs. implants, matrixes and lipofilling
- Next generation screening!
- Radiotherapy and reconstruction
- Lymphedema treatment – from different points of view
- Difficult refinements in augmentation
- Mastectomies from different perspectives
- Complications in autologous reconstruction
- Best case - best save session with live voting of the audience

Our Goal is to have a lively and informative symposium. The symposium venue, situated on the famous Königsallee, provides again a very special atmosphere. I would also like to express my gratitude to the members of the faculty. Without their time and support, it would have been not possible to accomplish this interesting program.

I look forward to welcoming you in Düsseldorf.

Kind Regards

Prof. Dr. med. Christoph Andree

## CONGRESS APP, TED-SYSTEM & SOCIAL MEDIA

As in the previous year, we would like to provide all visitors of the 4<sup>th</sup> Breast Symposium Duesseldorf with an iPhone app again. In addition to information regarding the symposium as well as the general program, the app features the possibility to quickly and easily reach Taxi-Zentral Duesseldorf via a quick button.

### BEST CASE – BEST SAVE – IPHONE VOTING

This year, there will be once again the best case- best save session on Friday from 6 pm to 7 pm during which 5 young surgeons are given the opportunity to present their most difficult case and the appropriate solution. After the presentations, the audience is going to vote on the presentations.

### ONLINE QUESTIONS AND TED VOTING

What interests and moves the audience most? We're asking you to let us know by using the app to send anonymous questions directly to the moderators.

### How would you decide?

In order to facilitate a discussion that meets with the expectations of the participants, this year we are going to ask for your opinion at the beginning of the session as well as at the end – we are already very much looking forward to the results and to finding out if your opinion changes after listening to the presentations.

Sending messages to moderators, taking part in the voting at the best case - best save session as well as taking the TED surveys is only possible if the app is installed on your iPhone.

## ABSTRACTS BEST CASE, BEST SAVE & POSTER SESSION

We kindly invite you to submit an abstract for the session „best case, best save in breast surgery“

In our awarded session „Best case, best save in breast surgery“ five pre-selected cases will be presented by delegates. Further, from the scientific board selected abstracts will be accepted and presented as a poster in the exhibition area.

The scientific board welcomes submission of abstracts for presentations of interest in:

- Reconstructive breast surgery
- Lymph surgery
- Aesthetic breast surgery

At the end of the session will be a live voting by the audience to select the best presentation. The best presentation will be awarded. Each presentation will last six minutes – 4 minutes for the presentation and 2 minutes for questions.

The abstract must be written in English and should be a maximum of 300 words. Please use our online abstract submission tool under [www.ibsd2016.com](http://www.ibsd2016.com).

The deadline for abstract submission is January 17, 2016.

Authors will be notified in case of acceptance until January 24, 2016

Good Luck!
