PRELIMINARY PROGRAM

NOVEMBER 10-13, 2014 PARIS, PALAIS DES CONGRÈS www.sofcot-congres.fr

In partnership between the French Health Authority (HAS) and the SOFCOT for certain sessions

Pr. Rémi Kohler (Lyon) President of the AOT President of the 89th Congress

Dear colleagues, dear friends,

It is at once an honor and a delicate exercise for a President of the Orthopedics-Traumatology Academy (AOT) to draw up the program of the annual Congress of our Society: it has to be attractive and live up to the membership's variegated expectations while at the same time fitting in with the regulatory framework which the Society cannot avoid. The 2014 Congress will be held from Monday November 10th to Thursday November 13th, with no extension into Friday.

Underlying the program, there are several aspects of the « policy » set out this year by the President of the SOF-COT and the Directorate:

- ▶ The launch in 2014 of the Développement Professionnel Continu (DPC) continuing education program, under the HPST « Hospitals, Patients, Health and Community » legislation (after a 5-year running-in period!) is one of our prime concerns, as it represents an important change. In the new Congress format; the first day - Monday November 10 - will be entirely devoted to DPC, with a « assessment » session in the morning (organized by Orthorisa), and a « cognitive » session in the afternoon comprising the SoFCOT instructional courses. Thus the actual Congress begins on Tuesday morning, for 3 days, after this continuing education day which each of you will be able to integrate in your practice. This new 1+3 « tight » schedule should thus satisfy many of you.
- The theme for the Congress (and for the year 2014) is: Quality, assessment, risk management.

Several studies will be run in partnership with the French health authority (Haute

Autorité de Santé: HAS), following its « good practice guidelines », and the Congress itself is being held under its auspices. This is a perfect example of syneray between the two components of our Society: the AOT, in charge of the scientific, educational and research aspects, and the CNP-SOFCOT, in charge of policy and communication. It is also an illustration of how SOF-COT has evolved, from what was until recently known as a « learned Society » toward an authentic professional Society. 2014 is thus the year in which the new statutes, voted on in November 2013, will be fully implemented.

Finally, the particular coloring of the chosen topics reflects the perspectives of the two Presidents: research, spine, and pediatrics. These topics will be dealt with during three tightly packed days: Round Tables, Symposia and Forums, focusing whenever possible on children and adults or, even better, on the « child-to-adult » continuum, in the spirit of the original meaning of the term « orthopedic », coined in 1741 by our illustrious predecessor Nicolas Andry!

You will, of course, still have your classic Congress sessions:

- Some 25 thematic individual communication sessions: spine, hip, knee, shoulder and elbow, foot and ankle, hand and wrist, traumatology, pediatrics, tumor and infection, and research.
- Additionally, this year a special session will be devoted to the burning topic of « Assessment, quality, risk management ».

Welcome in Paris in November 2014!

- Nine ever-popular case-file discussion sessions.
- Twenty instructional course lectures (Monday afternoon, as part of the continuing education day).
- Wednesday's Specialties Day, in which each of our associated Societies runs its own program of symposia, round tables and Individual communications.
- Wednesday is also the Theater Nurses' day (with a partly pediatric theme) and Physiotherapists' day (on the spine).
- On Tuesday morning, the Nicolas Andry Circle (where everybody who is anybody in Congress just has to be!) will run communications and a round table on quality and assessment.
- A medical writing session will take place at lunchtime on Tuesday, to allow as many participants as possible to come, without « impinging » on other subjects.

Among the particular sessions that will distinguish the « 2014 vintage », special mention must be made of:

- Three symposia (i.e., one more than previously):
 - On orthopedics: Results in ACL reconstruction at more than 10 years' follow-up.
 - On traumatology: 4-fragment proximal humerus fracture.
 - And one transversal: Childhood and adult idiopathic scoliosis.

These 3 symposia are the fruit of the work of the respective associated Societies.

A forum bringing together 3 European Societies: EFORT, EPOS and NOF, our guests from the seven countries of the Nordic Orthopaedic Federation (Denmark, Estonia, Finland, Iceland, the Netherlands, Norway and Sweden). The Forum will be given over to economic issues, of which our northern colleagues have great experience that they will share with us.

- Nine round tables:
 - ◆ Two on clinical controversies:
 - Influence of the surgical approach on results in THR.
 - Treatment of tibial plateau fracture by open or minimally invasive approach.
 - Two on research, focusing on bone, with clinical and fundamental cochairpersons:
 - Bone fragility (congenital in children and acquired in adults).
 - Bone biomechanics with age and physical activity.
 - Two on good practice guidelines, drawn up with the French health authority (HAS):
 - Surgery in chronic lower back pain.
 - Neonatal screening for congenital dislocation of the hip.
 - One on pain in orthopedics.
 - One, in coordination with the SICOT, on materials vigilance.
 - And one, run by a partner of the SOF-COT, who will be under the spotlight this year, presenting the « Best of the SOTEST ».

In the words of the Prince of Salina's nephew Tancredi (« The Leopard »), « If we want things to stay as they are, things will have to change. » Yes indeed, there are going to be many more changes this year, testifying to the vitality of our Society, making this 2014 Congress a watershed, rich and varied. We trust that many of you will come and take an active part.

Conviviality, however, remains unchanged and will be the leitmotif of the Congress in all its events, including the Opening session at the end of Tuesday afternoon, where the keynote will be semantics and humor!

Looking forward to seeing you in Paris in November 2014 for the 89th meeting of the SOFCOT!

Pr. Norbert Passuti (Nantes) President of the CNP-SOFCOT

In 2014, we shall continue and confirm the actions undertaken in 2013 by our previous President. The official inauguration of CNP-SOFCOT and ODPC-COT was an important event, bringing together all of our Associate and Partner Societies in the field of governance, with common rules for continuing education (DPC).

This reinforces the fundamental concept of a **professional Society**, entrusted with the defense of all the specialties making up the discipline before the national institutions (ANSM, HAS and Health Ministry), without forgetting our place within the FSM federation of medical specialties.

The « policy objectives » of the SOFCOT for 2014 are several:

- Firstly, a priority focus on quality and assessment, in direct liaison with the HAS health authority. The program of the 2014 Congress, as presented by Rémi Kohler, exemplifies this, with two round tables that will produce HAS guidelines and draw up the rules for symposia as of 2015.
 - We entrust our young colleagues (interns and residents) with the mission of training themselves in documentary research « à la HAS Haute Autorité de Santé » and establishing a framework to avoid the pitfalls of conflicts of interest. We hope, in the first quarter of 2014, to reach an agreement between the HAS and the SOFCOT, spelling out and officializing this shared undertaking.
- Another essential point is to pursue the process of federation, so that the authorities will have a single interlocutor, the CNP-SOFCOT, reinforcing our position in on-going discussions and those to come: nomenclature, DPC validation program, implant registries, etc. I am relying on the Commissions set up by the Administrative Boards of CNP-SOFCOT and the Associate and Partner Societies to take an active part in these ongoing processes, setting objectives for 2014 with a presentation of results in November.

- We need to improve our communication, both internally, with the proposed CNP-SOFCOT Newsletter, including a literature update, that members will receive on a regular basis, and externally, with effective « general public » communication, publicizing our discipline and all its subspecialties and the services they render to the population as a whole.
- ▶ Finally, CNP-SOFCOT, via its Scientific and pedagogic Committees, should be a wellspring of medical economic research projects (« PRMEs »), actively and scientifically defending innovation in surgical techniques and implants. A specialized health economist will regularly help us draw up such projects. We are the people working on the ground, and we need to be in a position to respond to calls for projects.

A reminder: France is the guest country at the **AAOS Congress** in New Orleans, March 11-15, 2014, and we hope that many of you will be able to come to this important event.

2014 is thus going to be a year rich in projects: our policy should be guided by ambition and the defense of our discipline, deploying all the combined forces of CNP-SOFCOT, with the AOT, Associate and Partner Societies, Collège, CNU, SNCO and Orthorisq. I would also stress the importance of the FICOT Foundation, which we should all support as it finances our youngest colleagues in completing their training and in their research projects – and they are our specialty's future.

KEY DATES

- ▶ Deadline for Abstracts submission ▶▶▶▶▶▶ March 22, 2014 (midnight)
- Confirmation of Abstracts acceptance → → → → → → June 15, 2014
- Deadline for SOFCOT membership
 - + congress registration >>>>>>>> July 1, 2014
- ► Final program → → → → → → → → → → → → → → October 2014
- ▶ Deadline for discount registration ▶▶▶▶▶▶ September 15, 2014 (included)
- On the spot registration ****** after October 30, 2014 (included)

Only at:

www.sofcot-congres.fr

IMPORTANT

- Instructional course lectures are not free of access anymore.
- Instructional course lectures pre-inscription is to be made at the same time your register for the congress (places limited to rooms capacities).

MONDAY NOVEMBER 10

DPC DAY

(see page 9)

A.M

8:00 am > 1:00 pm Orthorisa

Restricted to Orthorisq members

Registration obligatory

Free for Orthorisg members up to date with their subscription

- Mandatory session for certification
- ► Annual training day in risk management in orthopedic and traumatologic surgery

MONDAY NOVEMBER 10

DPC DAY

(see page 9)

P.M.

1:00 pm Opening of reception

2:15 6:30 pm

Instructional course lectures

(Registration obligatory on www.sofcot-congres.fr)

General considerations

Registries in orthopedics-traumatology

Christian Delaunay (Longjumeau)

Surgery-room infection prevention

Dominique Chauveaux (Bordeaux)

Imaging pathway in painful hip: <a> Alain Blum (Nancy)

Visco-supplementation: technique, indications and results

Virginie Legré-Boyer (Paris)

Adult orthopedics

Osteoarthritis of the wrist: Jacky Laulan (Tours)
Adult valgus flat-foot: Eric Toullec (Bordeaux)

Glenoid labrum pathology: ■ Philippe Clavert (Strasbourg)

Primary THR femoral head diameter: ■ Julien Girard (Lille)

Adult traumatology

Management of spinal fracture with associated neurologic disorder

Yann-Philippe Charles (Strasbourg)

Recent and old humeral shaft fracture: <a> Laurent Pidhorz (Le Mans)

Management of recent shoulder dislocation

Frédéric Khiami (Paris)

Recent traumatic patellar dislocation

Victoria B. Duthon (Lausanne)

Pediatric orthopedics

Management of early-onset scoliosis (EOS): ■ Vincent Cunin (Lyon)

Bone cyst: diagnosis and treatment: <a>Philippe Mascard (Paris)

Sports traumatology: Franck Launay (Marseille)

Childhood osteoarticular infection: from diagnosis to seguelae

Brice Ilharreborde (Paris)

Surgical techniques

Tendon lengthening and transfer: <a> Franck Fitoussi (Paris)

Posterolateral knee ligament plasty: <a> Philippe Djian (Paris)

Surgical approaches in revision total knee replacement

Luc Kerboull (Paris)

Mobilization surgery in post-traumatic stiff knee

Nicolas Pujol (Versailles)

TUESDAY NOVEMBER 11

A.M

8:00 am-12:30 pm Individual communications

8:00 am-12:30 pm Communications and Round Table of the Nicolas Andry

Circle

Frédéric Dubrana (Brest), Alain-Charles Masquelet (Paris)

8:00-9:30 am SOFCOT-SICOT Forum 🕠

Materials vigilance and traceability: osteosynthesis

locking plates, grafts and bone substitutes

■ Maurice Hinsenkamp (Bruxelles, Belgique), Philippe Tracol

(Cavaillon)

8:30-10:00 am Round Tables

Good practice

(in collaboration with the HAS)

Coordinators: Rémi Kohler (Lyon), Norbert Passuti (Nantes)

• Chronic lower back pain: role of surgery

Cédric Barrey (Lyon), Jean-Charles Le Huec (Bordeaux)

Neonatal screening for congenital dislocation of the hip

Christian Morin (Berck), Philippe Wicart (Paris)

8:30-10:00 am Case-file discussion

Hand

8:30 - 10:00 am Specialty Society

SOFROT

(Société Française de Recherche Orthopédique et Traumatologique, French Society of Orthopedics and Traumatology Research)

10:30 am ≥ 12:30 pm Face to Face •

Tibial plateau fracture: conventional *versus* minimally

invasive approaches

Louis Etienne Gayet (Poitiers), Vincent Steiger (Angers), Tanguy

Vendeuvre (Poitiers)

10:30 am 12:00 pm CJO, CFCOT and SOFCOT

DESC specialty certificates

TUESDAY November 11

	P.M.
12:15 • 2:00 pm	Orthorisq General Assembly
1: 00 • 2:00 pm	CFCOT General Assembly
12:30 - 2:00 pm	Medical writing Ethics and quality: author, reviewer, editor and publisher ■ Philippe Beaufils (Versailles)
1: 30 • 3:30 pm	Professional Session
2:00 • 6:00 pm	Individual communications
3:30 • 4:15 pm	SNCO General Assembly
2:00►3:30 pm	Symposium
2:00 ► 3:30 pm	Case-file discussion Shoulder/Elbow
2:00 • 4:00 pm	Best of 2013-2014 university theses
4:00 - 5:30 pm	Symposium Four-fragment proximal humerus fracture: treatment and results assessment Dominique Saragaglia (Grenoble), François Sirveaux (Nancy)
4:00 - 6:00 pm	Round Table Acquired and congenital bone fragility
	 Childhood: Specificities and exploration techniques, imperfect osteogenesis Justine Bacchetta (Lyon), François Fassier (Montréal, Canada)
	 Adult: Osteoporosis and periprosthetic osteolysis François Gouin (Nantes), Dominique Heymann (Nantes)
4:30 ►6:00 pm	Three pathways in orthopedic surgery ✓ Patrice Papin (Villefranche-sur-Saône)
4:30 ► 6:00 pm	Case-file discussion Hip
6:00 ►7:30 pm	Congress inaugural session Rémi Kohler (Lyon), AOT and 89th Congress President

Norbert Passuti (Nantes), CNP-SOFCOT President

WEDNESDAY NOVEMBER 12

day

8:00 am 12:30 pm

Specialty Societies' day

2:00 • 4:30 pm

AFCP (Association Française de Chirurgie du Pied, French Foot

Surgery Association)

GETRAUM (Groupe d'Etude en Traumatologie, Traumatology

Study Group)

Tumeurs Osseuses, French Sarcoma Group/Bone Tumor Study Group)

10:00 am 1:00 pm

Nurses' program

4:30►5:30 pm

10:30 am-12:30 pm Physiotherapists' program

2:00 - 5:00 pm

CONTINUING MEDICAL EDUCATION DÉVELOPPEMENT PROFESSIONNEL CONTINU (DPC)

You can choose a DPC program including instructional course lectures. You must attend four, and will be assessed on 5 before-and-after MCQs per course.

How to validate a DPC program:

Before the Congress: When registering for Congress on the www.sofcot-congres.fr website, choose 4 instructional course lectures by selecting "Je participe au programme de DPC". NB: the number of places for each course is limited by seating capacity; if the places are all taken when you register, you will have to choose a different course.

Once registered for the instructional courses, you will receive, in a single e-mail, your DPC confirmation and 5 MCQs per course, which you MUST send back (anonymity assured) by November 3rd, 2014. You should also print out the e-mail.

During the Congress: To register presence, present your DPC confirmation to the hostesses at the door on the day of the course.

After the Congress: On November 20th, 2014, you will be e-mailed the same 5 MCQs for the courses you attended. The deadline for the post-course MCQs is December 15th, 2014. NB: The orthopedic/traumatologic surgery continuing education diploma organization ODPC-COT can only begin validation once the post-course assessment has been completed.

THURSDAY NOVEMBER 13

A.M

Individual communications 8:00 am 12:00 pm 8:00 am 12:30 pm **Specialty Societies** SOFOP (Société Française d'Orthopédie Pétriatrique, French Pediatric Orthopedics Society) CAOS (Société Française pour le développement de la Chirurgie Assistée par Ordinateur en Orthopédie, French Society for the Development of Computer-Assisted Surgery in Orthopedics) 8-00 • 9-30 am **Round Table** When pain encounters orthopedics Olivier Gagey (Paris, SOFCOT), Serge Perrot (Paris, Société française d'étude et traitement de la douleur SFETD, French Society for the Study and Treatment of Pain) EFORT/ EPOS/ NOF (Nordic Orthopaedic Federation) Forum ? 8:00 - 10:00 am The social and economic value of orthopaedic surgery Thierry Bégué (Paris), Rémi Kohler (Lyon) Round Table ... 10:00 11:30 am In the maze of approaches to the hip Frédéric Laude (Paris), Patrice Mertl (Amiens) 10:30 am > 12:00 pm Case-file discussion: Ankle-foot / Tumors P.M. 12:00 - 1:30 pm **CNP-SOFCOT** and AOT General Assemblies 1:00 4:00 pm Specialty Societies (cont'd): SOFOP - CAOS 2:00 - 5:30 pm Individual communications 2:00 - 3:30 pm Case-file discussion: Knee / Spine Best of the SOTEST 2:00 - 3:00 pm Bernard Augereau (Paris), Pierre Kehr (Strasbourg) Conference 4:00 - 4:30 pm Elastic stable intramedullary nailing (ESIMN): History of the technique and current indications Jean-Paul Métaizeau (Metz), Pierre Lascombes (Genève, Suisse) 4:00 - 5:30 pm Symposium 🞧 Results in ACL reconstruction at more than 10 years' follow-up Christophe Hulet (Caen), Nicolas Graveleau (Paris) **Round Table** 4:00 5:00 pm Bone biomechanics with age and physical activity Chair Patricia Thoreux (Paris), Société de biomécanique, Biomechanics Society; Olivier Rémy Néris (Brest) SoFAMEA President 4:00 - 5:30 pm Case-file discussion: Traumatology

Case-file discussion: Pediatrics

4:30 6:00 pm

SCIENTIFIC PARTICIPATION 2014

Individual oral communications and e-posters

Abstracts to be submitted **before March 22**, 2014 directly and EXCLUSI-VELY on the SOFCOT congress website: **www.sofcot-congres.fr**

Extracts from the SOFCOT regulations:

- « For communications by French teams, at least one author must be a SOFCOT member. »
- « No study that has been printed by or presented to an associate or partner society may be presented at the Congress. »
- « In case of any presentation or e-poster not made by the first author or one of the co-authors, those concerned will be banned for the following two years. »

By submitting your Abstract, you consent, should it be accepted, to its publication in the Orthopaedic Proceedings of the Bone and Joint Journal and on its website. This implies meeting the following conditions:

- 1) The text of the Abstract must not exceed 400 words. The submission should be in the form of a single-spaced text in 10-point "Courrier" fonts, without Tables or figures. The text can be either in French or in English.
- 2) It should report results of clinical or experimental research, in the following form:
 - a) Introduction, presenting the current state of knowledge and above all the objectives of the study.
 - b) Material of the clinical or experimental study, describing the study population or sample.
 - c) Operative, measurement and clinical/experimental assessment methods, etc..
 - d) Results, without commentary or discussion.
 - e) Discussion, focusing on the study objective and methodology, and the relation between the findings and those of the literature.
 - f) Conclusion, covering possible prospective implications, and clinical relevance in the case of experimental studies.
- 3) The type of presentation requested (oral communication or e-poster) and the topic categories (as shown in the on-line submission form) must obligatorily be specified.
- 4) A given team may not present more than 3 communications +1, as applicable, if relevant to the key topics: quality, assessment, risk management, + 1, if research.
- 5) Communications are selected anonymously, the title and text of the Abstract must contain no elements identifying the origin of the study. All co-authors must agree on the Abstract as submitted.

In case of any failure to comply with these rules, the Selection Committee will not be able to grade and thus to accept the communication.

If your communication is accepted, the Abstract will be included in the Congress smartphone application.

GENERAL INFORMATIONS

Registration

Registration is exclusively on-line, at www.sofcot-congres.fr
To validate your DPC certificate, you need to pay for your Congress registration yourself.

Congress awards

- ▶ **SOFCOT award***: €2000 for the best oral communication.
- ► AOT award: €2500 for the best work for the DES certificate (One candidate selected for each inter-region).
- Best e-poster award: €1000.
- Elsevier Masson award: Special electronic award: e-only subscriptions to OTSR and EMC.
- ▶ Sham award: €2500 for a communication on risk management.
- ► FHP clinical science research award*: €1500 for research work by a young surgeon in training.
- * Communication accepted for the Congress and presented by an author under 35 years of age. Prizewinners will be chosen by a jury based on the communication, in digital or paper format, including PowerPoint presentation and full text, submitted to the Society Secretariat at least 1 month ahead of Congress.

Continuing education

The 89th SOFCOT meeting can be covered by a continuing education scheme. CNP-SOFCOT is registered with the Ile-de-France regional Commissaire de la République. For Formation Médicale Continue sponsorship, the applicant must have paid his/her registration fees.

EACCME (European Accreditation Council for Continuing Medical Education): SOFCOT had applied for the 89th SOFCOT Congress to be approved for accreditation.

Final Program

The digital version of the final program (for download and print-out) will be available as of October 1st, 2014 on the SOFCOT website. A printed program will be available in congress bags supplemented by smartphone applications (for I-phone and Android).
